Orphaned as a baby when his parents were killed in a vicious orc attack, Kendrick of Elwood was raised by his elder brother, Darius. Though only nine at the time, Darius devoted his life to Kendrick's care and to purging orcs from their land. As Darius grew into a great warrior, he sheltered Kendrick from all possible harm. Now, after years of absence, a new danger emerges, more lethal than the threat of orcs or men. Reports of dragon attacks spread like wildfire through the panicked land. In memory of his mother's prophesies of a mighty Dragon Hunter in their bloodline, Darius leads Kendrick on a perilous journey to the castle of Ocard - the Dragon Hunter training grounds. As they battle through evil men and orc-infested lands, they align with a band of rogue warriors who swear their allegiance in this hazardous quest. The Brothers of Elwood, joined by Raya, an elven princess, Olick, a mute Berserker, and five human mercenaries must escape orc ambushes and dragon attacks to reach the fortress at Ocard. Will dragons completely decimate the countryside? Only the Dragon Hunter will decide! In times of orcs and dragons, the orphan Kendrick was raised by his overprotective brother Darius. When their village is attacked by dragons, they have to move through the woods seeking the land of Ocard where a dragon hunter should be trained. They team-up with a group of warriors wandering in the forest and the walk together to Ocard, in a dangerous journey under the attack of orcs and dragons. When they arrive in their destination, Darius discloses a secret to his brother. Well, for the most part, it was pretty straight forward with the story. The thing that struck me at first, was their costumes and makeup seemed too pristine. They seemed like they were in a film, not real life, too clean cut, if you know what I mean. The acting was good, better than most low budgets. The special effects, well, you get the idea, they didn't have countless millions to spend on them, so you don't see much of the dragon, except towards the end, briefly, so if you are used to the Hollywood blockbuster effects, you'll be disappointed. However, if you are a fan of independent or small scale films, this one is for you. In my opinion, pay no mind to the belligerent reviews below. This film was well done, with what resources they had. It is not even close to the worst film I have seen (see Psycho Ward if you want BAD). Bottom line, you gotta at least give it a chance. Worth renting, not buying (though you can watch it for free on Hulu, so no gripes about wasted money). I know it's not an epic, but for half a million quid you're never going to get Lord of the Rings. The acting is decent, the setting is believable and most of the cast do their old world accents very well. Yes, the dragon does look a little clunky but it only appears fleetingly so it hardly spoils the film.

The whole feature has a wonderful mellowness to it. It's so refreshing to see a film of this genre written about everyday folk: no kings, warlocks or dark lords. The script is plain but earnest and the characters are easy to relate to. Try to think of it as the journey of two brothers and their mates rather than a reptilian killing spree and you'll see what I mean.

Erik Denton and Maclain Nelson are great in the lead roles. Both characters are extremely likable and the actors are incredibly attractive. I love the contrast between the two brothers. Darius (played by Erik) is overburdened, distant and a little sad, while Kendrick (played by Maclain) is wide-eyed and eager to please. Nice work fellas! Credit also to the excellent Slate Holmgren, who really shines as sidekick Roland.

The shaky camera-work in the orc fight has come in for a lot of criticism. It worked fine for me: we all know why directors do this so there's no need to give them a hard time about it. My only gripe is that the side story whereby Oswin tries to tame the dragon was never given a chance to develop. I guess they ran out of time.

All in all, this is a touching tale about two blokes trying to do some good in the world. It is not an action adventure. Enjoy it for what it is. 7cb1d79195
